ELEUTHERA SAILING ACADEMY

Since 2020

FINDING OUR WIND

2020 Preseason | COVID period • One camp in June 2020

ESA's 2020 beginnings. Archive photograph; not confirmed as the June camp.

Retrospective report • prepared November 2026 from archived records

2020 HIGHLIGHTS

One June camp

The COVID preseason consisted of one camp in June 2020. It belongs at the beginning of ESA's story, before Season 1 in 2020–2021. This is a short preseason record, not a full annual programme.

The beginning at Savannah Sound

Craig Symonette's vision for a sailing school on Eleuthera brought Martin and Carlien to Savannah Sound. Their earlier Make Them Sailors work had taken sailing to coastal communities; Eleuthera offered the chance to build a continuing local programme.

Brief accounting summary

Separate income, expense and net figures for the single June camp are not available. Early expense records do not isolate the camp's receipts and costs. No zero balance or annual result is implied.

Thank you

Thank you to the first families and supporters who helped turn the idea of a local sailing programme into an opportunity to get on the water.

AN EARLY INVITATION

An original 2020 communication

Archive flyer for a planned March 2020 camp. This is not evidence that the advertised camp took place; the confirmed completed preseason activity was one camp in June.

WHAT FOLLOWED

Retrospective context from the five-year book

Teaching on shore, pictured in the 2025 founding retrospective. Photograph not dated to the 2020 camp.

Learning beside the Sound, from the same retrospective. Capture date unrecorded; not a preseason attendance record.
